

## Model 2009 3" Stroke, Two Handle Push Pull Control Head

This control is available with three different handles; standard, handles with plastic grips or curved handles with knobs. An optional clutch and throttle interlock can be ordered with this unit. The purpose of this interlock is to prevent shifting, above engine idle. It is only available for systems having clutch and throttle on the same control. In two station applications only one interlock is required. For gears with an electric clutch, an adapter with two electric clutch, and adapter with two microswitches can be ordered.

### Features

- 2 year guarantee
- Corrosion free die cast silicon bronze and stainless steel hardware
- 3 adjustable stroke ranges up to 3 inches
- Suitable for 30 Series and 40 Series Cables
- LARGE CENTER BEARING
- No Lost Motion
- High strength
- Low Wear and Long Life
- Removable dome for easy head and cable installation
- Independent friction and detent (standard) are adjustable and removable
- Operating quadrants are positively pin fastened to handle shaft for safety
- Suitable for series or parallel rigging
- Optional safety switch, which prevents engine starting unless control head is in neutral (center) position, is available either pre-installed or in kit form
- Self-adhesive labels, instructions and a cutout template are included

## Ordering Information

### Model Designations:

<b>A</b>	One short handle with friction and one long handle with detent	<b>I</b>	Electric clutch adaptor
<b>AA</b>	One short handle with friction and one long handle with friction	<b>*J</b>	With two neutral safety switches
<b>B</b>	Two long handles with detent	<b>K</b>	With chrome finish cover and handles
<b>C</b>	Two long handles with friction	<b>L</b>	With polished brass finish cover and handles
<b>D</b>	Two long handles with one detent and one friction	<b>M</b>	With black epoxy finish cover and chrome handles
<b>E</b>	Two short handles with detent	<b>S</b>	R.H. Model with interlock (gear on right side)
<b>F</b>	Two short handles with friction	<b>T</b>	L.H. Model with interlock (gear on left side)
<b>G</b>	Two short handles with one detent and one friction	<b>U</b>	With curved handles and red or black knobs
<b>*H</b>	With one neutral safety switch	<b>V</b>	With red or black plastic grips

\* Neutral Safety switch is normally installed with detented handle.

The standard Model 2009 control head is supplied as follows:

1. One short handle with friction and one long handle with detent
2. With chrome finish cover and handles
3. Without neutral safety switch

To order, state Model Number followed by the desired Model Designation letter codes:

### Example

Standard 2009 control head. Ordering No. is 2009 AK

### Note

Cable connector kits are ordered separately. Each Push Pull cable end attached to the control head requires one kit.

### Ordering Numbers

2009 - 0901 Connection Kit (30 series cable)  
2009 - 0903 Neutral Safety Switch Kit

2009 - 0902 Connection Kit (40 series cable)  
2009 - 0910 Electric Clutch Adaptor Kit

### Weight

6 lb. (2.73 kg.)

### Patents

U.S. Patent Number 4280371

CAN. Patent Number 1158136
