

## Model 2091 Two Station, Single Lever Control

The 2091 master control heads feature a pull-out handle for overriding throttle. All models are entirely made of die-cast silicon bronze and stainless steel hardware and are backed up with our five year warranty.

The maximum clutch stroke is 2 3/4" (70mm) and the maximum throttle stroke is 2 3/4" (70mm). The various connection points provide the correct travel for your engine and gear.

The remote control head is Model **2093**.

## Ordering Information

### Model Designations:

Model 2091 (master): J,K,L,M,U,Y,Z

Adapter kits to connect clutch and throttle cables to the master control are ordered as follows:

### Example

Standard 2009 single engine master control with chrome finish T-bar handle and riveted label, left hand. Ordering No. is 2091 KYZT

### Note

Two cables per engine are required for interconnecting the master and remote station. These are 47 series pull/pull cables, and are available in even foot lengths from 8 to 30 feet. Control heads include all necessary parts to attached cables from the master station to the remote station.

### Ordering Numbers

2091 - 0901 for 30 series cable

2091 - 0902 for 40 series cable

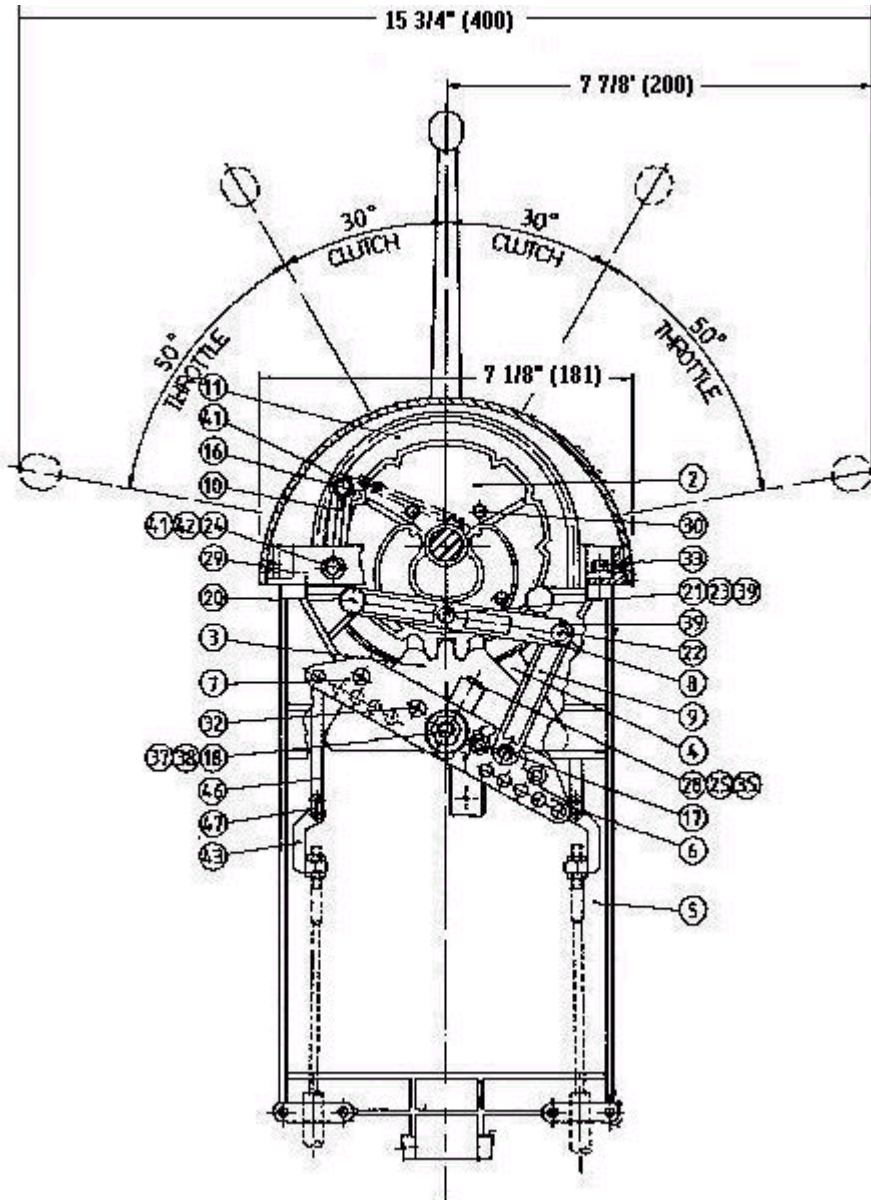

### Patents

U.S. Patent Number 4280371

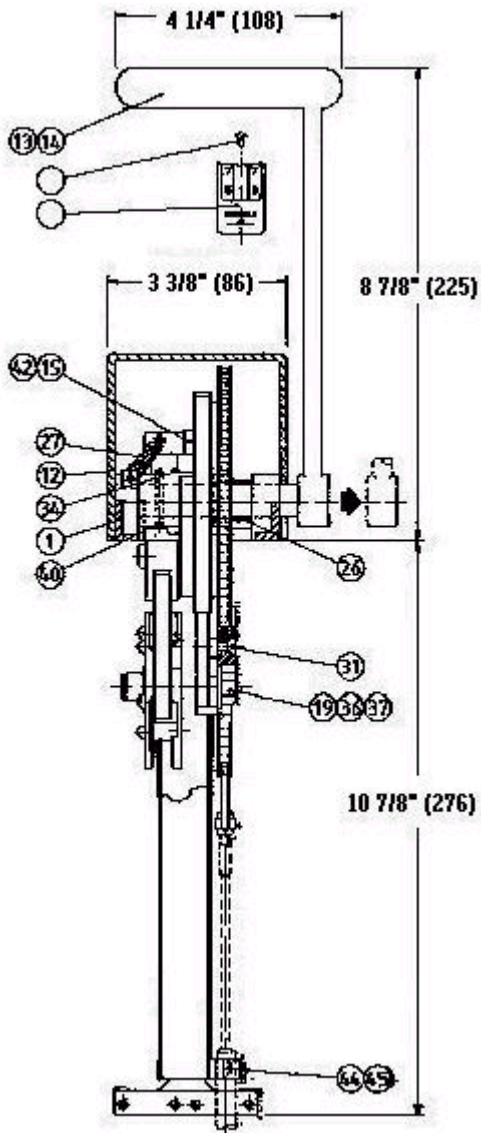

CAN. Patent Number 1158136
